Mobile App Developer   Hattisar, Kathmandu, Nepal
🔗 https://sastotickets.com/

As a sole Mobile App Developer, I:

- Initiated and completed end-to-end development of an Android SDK using Kotlin.
- Developed a mobile app using Flutter.
- Improved performance and user experience through skillful debugging and problem-solving.
- Collaborated with various teams for better SDK integration into Android apps.
- Created comprehensive documentation.

Technologies Used: Android SDK, Kotlin, Flutter, Dart, Firebase, RestFul API, Google Maps, Java, Node Js,

Code Himalaya   2024 Apr - Present
Flutter Developer   Kupondol, Lalitour, Nepal
🔗 https://codehimalaya.com/

As a Mobile App Developer, I:

- Worked with the team at Code Himalaya to deliver high-quality, user-centric applications.
- Collaborated with other teams to improve UI/UX.
- Effectively integrated REST APIs.
- Researched and delivered innovative solutions to keep apps current and competitive.

  Technologies Used: Flutter, Dart, Firebase, Restful API,

IvyGo   September 2024 - October 2024
Flutter Developer   Sydney, Australia
🔗 https://ivygo.com.au/

As a Flutter developer, I:

- Worked remotely as a Flutter developer.
- Focused on integrating the payment flow for an app.
- Ensured seamless and secure transactions for users.

Collaborated with the team to enhance the overall app functionality and user experience.

Technologies Used: Flutter, Dart, Provider, Stripe

Education

Informatics College Pokhara   2019 - 2022
Computing   Bachelor fo Science
72%
🔗 https://icp.edu.np/

I earned my degree with pride due to my excellent command of various programming languages and honing my analytical and problem-solving skills. This success reflects my commitment to excellence and my willingness to tackle complex challenges in technology.

Projects

Sasto Tickets Android SDK (Kotlin)
Flight Booking SDK

Created a Kotlin Android SDK for efficient flight booking with real-time RESTful APIs, custom user flows, and third-party API integration for enhanced user experience.

Technologies Used: Kotlin, RESTful APIs, Flavors (Android).

Kotlin, Android Studio, Android SDK, Android Flavor

Sasto Tickets App (Flutter)
Flight Booking Application

Developed a user-friendly Flutter app for seamless flight booking with modern ticket display, secure wallet functionality, consistent UI/UX for Android and iOS, and real-time data via RESTful APIs.

Technologies Used: Flutter, Dart RESTful APIs, Payment Gateway (Esewa, Khalti, Connect IPS, etc)

Flutter, Getx, Dart, Rest API

Bhoklayo (Flutter App)
Food delivering Application

Developed a mobile/web food delivery app with the offline shopping cart, item variants, customization, and location selection maps. Creating a Delivery Boy app for efficient order management and communication.

Technologies Used: Flutter, Dart, Getx, Google Map, RestApis

Flutter, Dart, Getx, Google Maps, Rest Api

Bhoklayo (Flutter Web App)
Restaurant Order Management System

Developed a web restaurant ordering system allowing users to scan table QR codes to access a website for placing orders, checking their orders, and ringing the waiter.

Technologies Used: Flutter, Dart, GetX, Google Maps, REST APIs

Flutter, Dart, Getx, Restful API

Saral Shikshya   April 2024 - July 2024
Exam Preparation Platform
🔗 https://saralshikshya.com/

Developed Saral Shikshya, a mobile exam preparation platform with mock tests, real-time exams, performance insights, physical exam registration, and a user-friendly interactive interface.

Technologies Used: Flutter, Dart, Firebase, Get x

Flutter, Dart, Firebase, Getx

Hitech
B2B Ecommerce Application

Developed a B2B e-commerce application, allowing users to place orders, view order status, track completed orders, filter products, add items to the cart, and search for products.

Technologies Used: Firebase, Flutter, Dart, Riverpod, Restful API

Flutter, Dart, Riverpod, Restful API, Firebase
